Experience

Amazon Warehouse

El Paso, TX

Associate

Jan 2022 – up to date

- Learned to do multitask while having complete attention for safety hazards.
- Provided support to the team, teaching new employees more techniques and showing them the process.
- Accomplished superior's demands always being above the rate and the demand required.

Projects

Ticket Miner

Aug 2023 - Dec 2023

Accomplish to develop a functional program that sells event tickets by doing objects and managing availability.

- Manage a system that keeps count of customers, venues, events and tickets.
- Modification of multiple files that allow to log all the transactions being made in the system.
- Create a friendly application where the user gets comfortable with it.

Forum app

Aug 2024 - Dec 2024

As a team we develop an app that allows user to interact with each other.

- We manage a database that stores all the information from the users and the threads they post.
- We provide a user-friendly interface that allows the user to move comfortably through the app.
- Created a safe application where users can be confident to input their information.

Leadership & Activities

Amazon Employee

El Paso, TX

- Currently working at Amazon Warehouse in Elp1, during this time as an employee I learn different tasks where I have done excellent work, where I have received many positive feedbacks from the managers, also have received positive write ups that means I did a good job in the week and my rate was in the top percentage.

STEM Scholarship

El Paso, TX

- I was selected to be in the Stem scholarship, this is a big honor to be part because this scholarship is very limited.

Dean's list

El Paso, TX

- On the semester of Spring 2024 I was awarded for my top performance in the academic level
